

1

1. Build the base. Use half craft stick pieces along the width and cubes with holes on one side

2

2. Reinforce the base

3

3. Create triangular uprights and glue cubes at the top

4

4. Glue half craft stick pieces to the top

5

5. The arm is 2 craft sticks long and has a cube with holes on one end

6

6. Cut a small piece of dowel and thread it through the cubes with holes

7

7. Loop 1 or 2 rubber bands around the catapult arm

8

8. Pull the rubber band around the top of the supports, and over the catapult arm again

9

9. Glue and tape a plastic cup onto the end of the arm
