

1

1. Fit a plastic propeller onto a craft stick

2

2. Bend a paperclip as shown

3

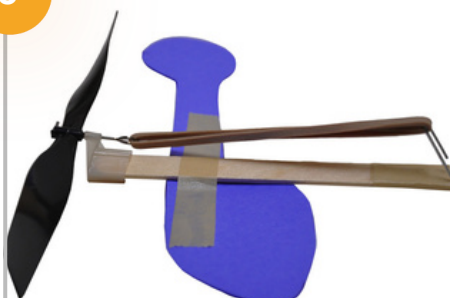

3. Tightly wrap tape around the paperclip and the other end of the craft stick

4

4. Tape a paper cutout onto the craft stick. The shape and size matters! See the Resources for for information

5

5. Attach two regular 3.5x1/8" rubber bands (size #33) between the propeller and paper clip

6

6. Complete! Watch the video to see how to fly
