

1

1. Cut pieces of 1/4-inch wide straw and use it to connect 3 sticks

2

2. Form into a triangle, then wrap it in a single long piece of tape

3

3. Repeat to make 3 triangles

4

4. Tape the sides of the triangles together

5

5. Fold the triangles together into a pyramid shape, and tape it together

6

6. Make the catapult arm by taping 5 skewers flat together, then tape on a craft stick

7

7. Insert and tape another straw piece onto the 3 middle skewers

8

8. Bend the straw and tape it to the inside corner of the pyramid

9

9. Loop a rubber band over the arm, then pull it through the frame

10

10. Pull the rubber band back over the arm

11

11. Tape a cup onto the arm, leaving about 1/2-inch of the skewer ends exposed

12

12. To fire: Hold down the frame. Put your fingertips on the end of the arm, and let slip to release
